Auckland NZ 1010**

48 Shortland street
Auckland

Welcome to the
Vero Centre

A little bit about our home

48 Shortland Street

Located in the heart of Auckland's financial district, our Auckland office is one of New Zealand's tallest tower blocks, with ample car parking, five podium public and conversation spaces, and 32 office levels. The building offers superb amenities, extensive end-of-trip facilities and at lobby level, The Pavilion café.

The Vero Centre sets a benchmark for office quality, and has won numerous awards for excellence in design, construction, and efficiency. The building houses an impressive range of contemporary art works from leading New Zealand painters and sculptors and features stone and granite tilework that is reminiscent of the history of construction in this part of Auckland city.

On completion in 2000, it was the most technologically advanced landmark office tower in New Zealand and pioneered many new architectural features that have since become standard for New Zealand commercial developments.

With easy connectivity to Britomart's transport hub, ferry services and motorways, and surrounded by a multitude of eating, shopping and entertainment options, the Vero Centre is an outstanding office asset.

The Vero Centre is in the heart of Auckland's financial district, between High Street and the Britomart Precinct and contains a cafe, health club and gymnasium, main entry public foyer, retail outlets in the 5 podium levels, and 32 office levels.

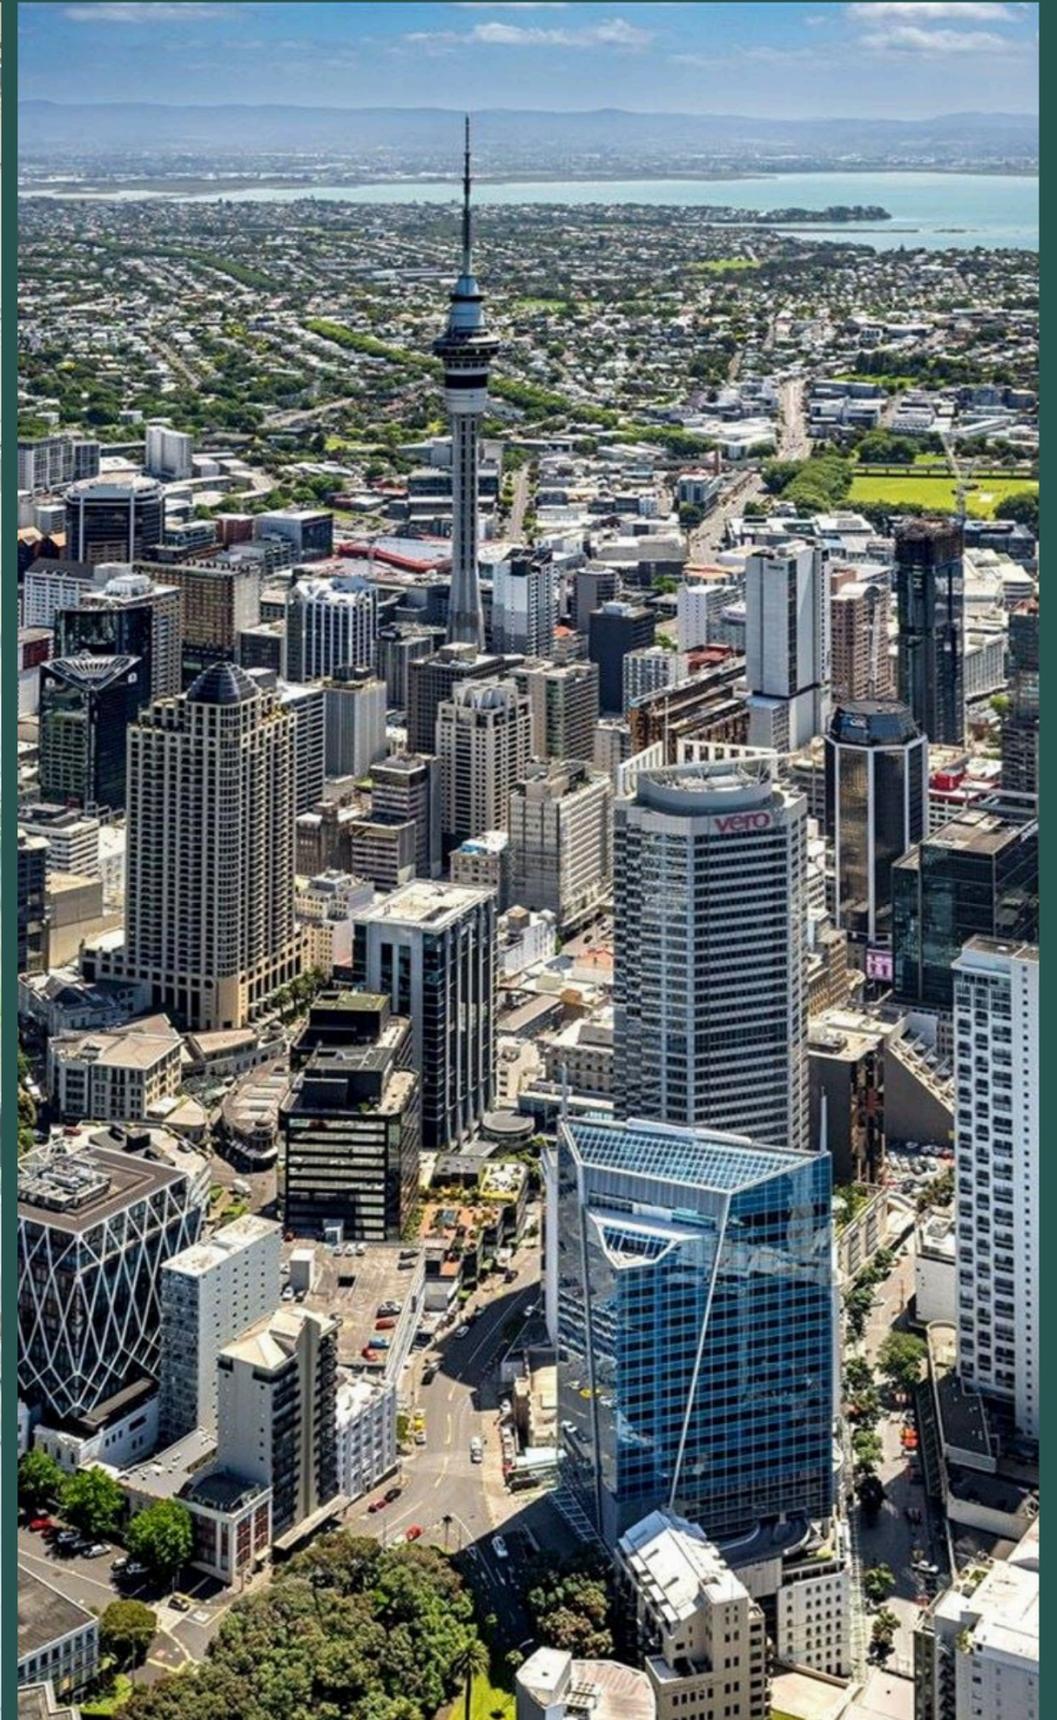

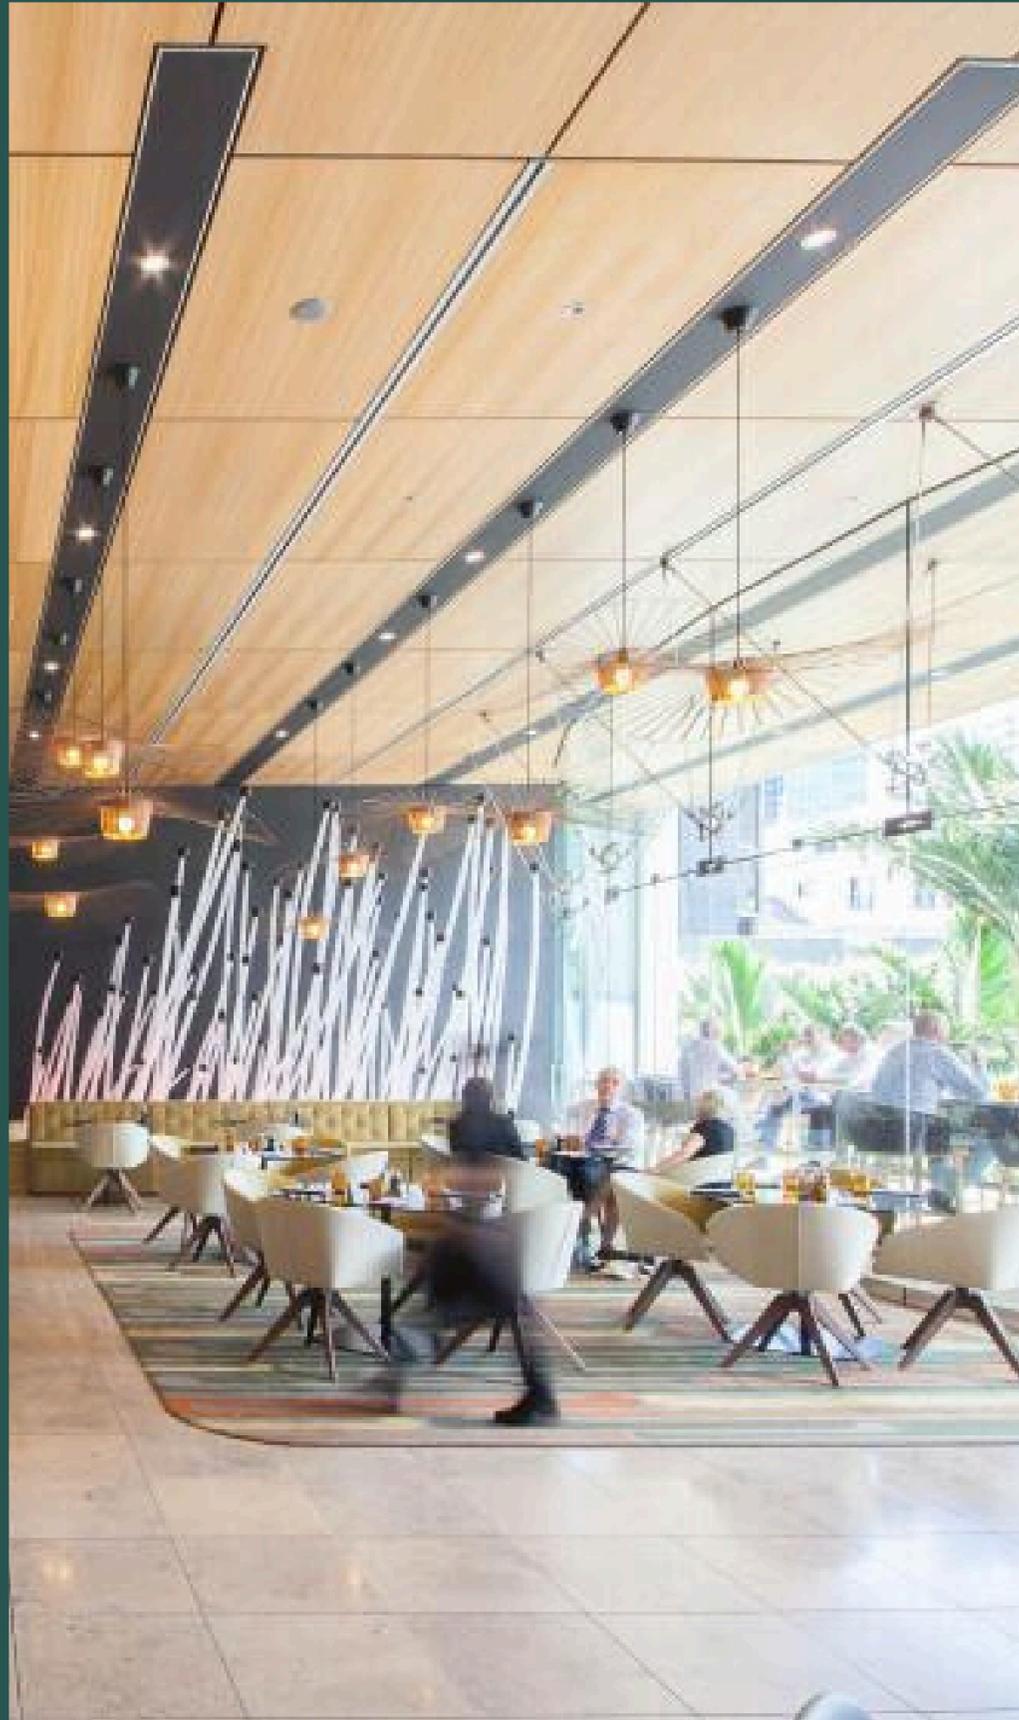

The Vero Centre conveniently located next to a range of health, recreation, food and childcare facilities. For a bite to eat or a quick coffee break, you can also head straight downstairs to Pavillion Kitchen.

Where we're located

When you arrive

Welcome!

When you walk through the doors, continue towards the lifts.

If this is your first day, you can contact your line manager or designated contact. They will meet you on the office level.
